Education

Middle East Technical University

2008 Software Management, MSc

Başkent Üniversitesi

2005 Computer Engineering, BSc

Experience

Cleantex | CTO

2019 – 2020

Worked on creating a whitelabel software as a service product for the companies renting linens with RFID chips embedded to boutique hotels and restaurants.

Modacruz | Technical Consultant

2018

Made improvements and refactorings on main site and some back-office applications in order to improve performance and stability.

Yemeksepeti | Software Developer

2010 – 2017

Worked on both front and backend parts of the main web application, api and payment services. Built and managed the batch and transactional emailing infrastructures, the Joker product and CI/CD tools and infrastructure. Also managed the web traffic for all applications company-wide running on Netscaler devices.

Meteksan Sistem | Software Developer

2005 – 2008

Worked on development of software systems for various public offices such as EMRA (EPDK), SSO (DMO), MSPC (ÖSYM).
